

Combinator Maxi BL

Surface Drill Stand System

New BRUSHLESS machine series: Motor without carbon brushes!

Brief description:

Complete wet surface drilling system for holes up to Ø 70 mm.

Special features drill motor:

- Magnetic motor without carbon brushes. The previously necessary, regular carbon replacement is completely eliminated. Therefore: less follow-up costs, less work, fewer sources of error.
- Significantly more torque. This is particularly noticeable in the lower speed range.
- High efficiency (Up to +30%). The omitted frictional resistance of the brushes and other factors result in higher efficiency.
- Long service life. The service life of ordinary brand machines is significantly exceeded.
- Significantly less heat generation of the running machine, even under full load.
- Slim design. Handy, small and light machine for low-fatigue work.
- Machine comes to a quick stop when switched off - by rapid braking of the magnetic motor.
- Spindle lock for easy tool changes.
- Powerful „MAXI“ drill motor with flushing head for wet operation.
- Water supply with regulating valve and stopcock. For easy handling, e.g. for serial drilling. The water dosage is set only once, then only ON/OFF is set with the stopcock.
- Speed range designed for drilling of stone with infinitely variable speed regulation.
- Wear-resistant and unbreakable silicone power cable in signal colour (clearly visible).
- Machine can also be used independently of the drill stand, as a purely manual machine.

Special features double column drill stand:

- High quality double column drill stand:
 1. No tilting moment, as drilling takes place between two drill columns.
 2. The power transmission during feed takes place via a continuous shaft on two toothed racks. This results in uniform power transmission without jamming (see reverse side).
 3. Compact, lightweight and handy drilling system. Due to the low height, it can also be used where there is little space in the height.
- Drilling stroke 150 or 230 mm.
- Rubberized base plate to protect sensitive drilling surfaces.
- Simple and quick clamping/brake adjustment with just one hand: To prevent the drilling unit from falling down in the drill rig due to its own weight.
- 2 lever suction holders Ø 120mm with clamp on the drill column, for mounting on smooth surfaces.
- Center point finder to help you find the correct drilling position.
- 3 splash protection caps of different sizes for the water collection opening with attached hose connection
- Drain hose with adapter for sucking off drilling mud with a standard wet vacuum cleaner.
- Extension modules: Vacuum suction plate and venturi set as accessories.

Adapter
with suction hose

Drill bit holders
M14 und R1/2"

Splash guards

Center point finder

Combinator Maxi BL

Surface Drill Stand System

PREMIUM QUALITY
MADE IN GERMANY

Also:

- Special requests (e.g. for longer connecting cables or hoses) can be considered.
- Repair service & maintenance for all our machines.

Application:

For the processing of natural or artificial stone.
Particularly suitable for tilers, stonemasons, renovators, floor renovators, restorers, sculptors, etc.

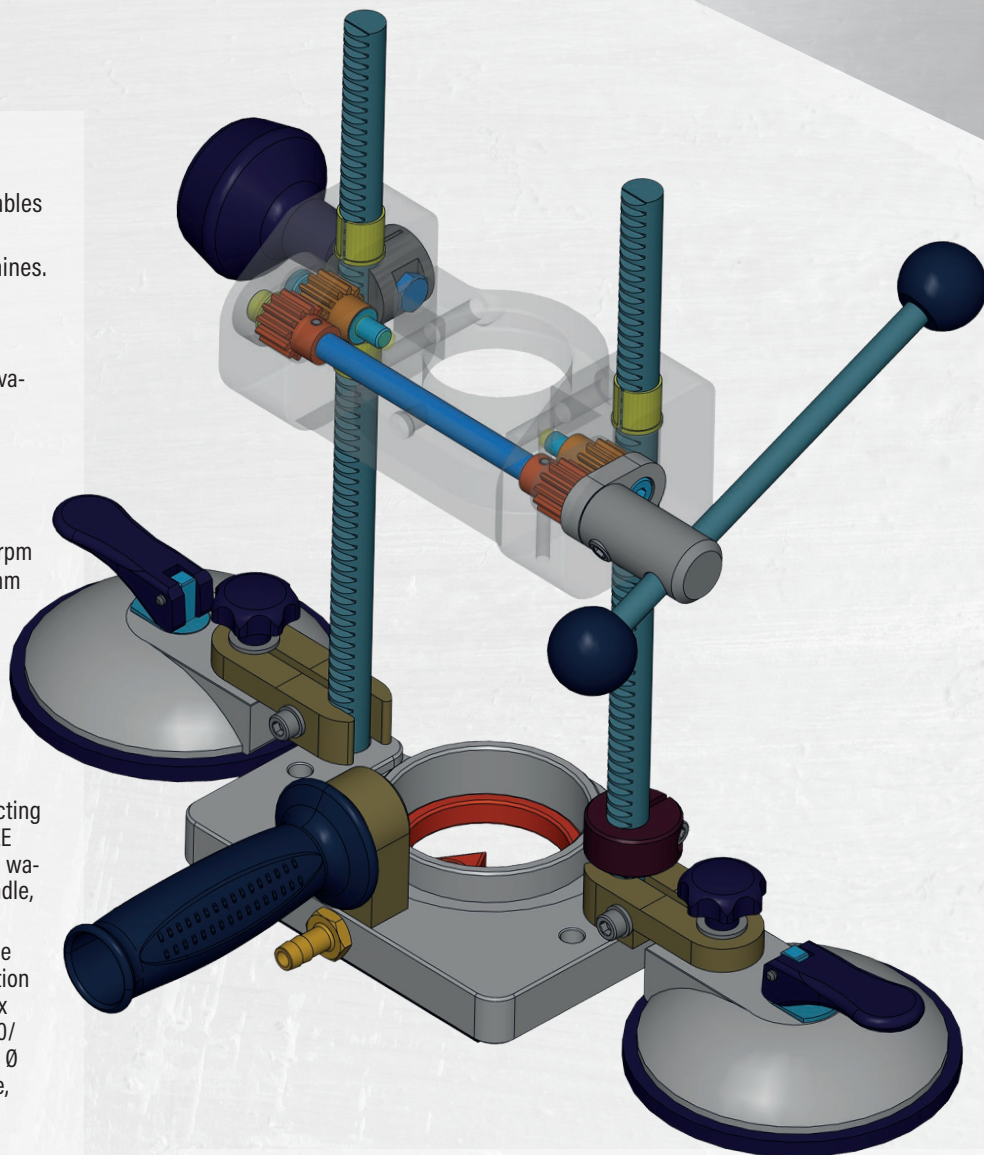

Technical Data:

Voltage:	230 Volt
Power:	1,400 Watt
Speed:	1,600-6,400 rpm
Drill stroke max.:	150 or 230 mm
Drill Ø max.:	70 mm
Spindle thread:	M 14 / R1/2"
Weight:	6.8 kg
Soft start	
Restart cutout	

Included:

Drilling motor Combinator MAXI: Silicon connecting cable 4 m, personal protection switch PRCD or CEE plug, water hose 2.5 m with brass quick coupling, water regulating valve and water stopcock, bow handle, drill bit holders for M14 and R1/2".

Double Column Drill Stand: with rubberized base plate, water collection opening and hose connection for suction, hose and adapter for water suction, 3x plastic splash guards with drill opening Ø -22/-40/-68 mm, center point finder, 2x lever suction cups Ø 120 mm with clamp holder on drill column, handle, Allen key 5 mm, carton.

Vacuum suction plate and venturi set as accessories possible.

Available version:

Surface Drill Stand System COMBINATOR MAXI BL, complete, drilling stroke 150 mm:
CEE 230V (for transformer), carton
Item-no.: 002.022.049

Surface Drill Stand System COMBINATOR MAXI BL, complete, drill stroke 150 mm:
DI 230V (with PRCD), carton
Item-no.: 002.022.058

Surface Drill Stand System COMBINATOR MAXI BL, complete, drill stroke 230 mm:
CEE 230V (for transformer), carton
Item-no.: 002.022.059

Surface Drill Stand System COMBINATOR MAXI BL, complete, drill stroke 230 mm:
DI 230V (with PRCD), carton
Item-no.: 002.022.060

Drilling motor COMBINATOR MAXI BL:
CEE 230V (for transformer), carton
Item-no.: 002.022.047

Drilling motor COMBINATOR MAXI BL:
DI 230V (with PRCD), carton
Item-no.: 002.022.046
